

HENLEY[®] STOVES

EVERY HOME DESERVES A HENLEY

THE STOVE COLLECTION 2025 : VOL 1

HENLEY STOVES

Henley Stoves is one of the fastest growing stove brands in both Ireland and the UK.

At Henley we are committed to providing quality products at affordable prices backed up with a market leading focus on customer service.

From factory floor to family home, our customers are our first priority.

We pride ourselves on using new designs, new technology and new environmentally friendly standards to ensure we are a market leader in the provision of the latest quality affordable stoves.

We service a range of customers across Ireland and the UK from our distribution centres in South West Ireland, Dublin and Cambridgeshire in the UK.

We have a range of products from traditional wood burning stoves to a wide and exclusive range of bio-ethanol stoves.

Henley has been at the heart of homes across Ireland and the UK since 1989.

Henley Stoves is also the producer of the Bertoneri Collection of Stone, Marble Surrounds & Fireplace Accessories.

Ask your local Henley Stockist about the Bertoneri Fireplace Collection Today

Please consult with a qualified professional installer (HETAS registered in the United Kingdom & Republic of Ireland) for expert advice including the requirement for a hearth in your home. Images contained within this brochure are Copyright 2025 of Henley Stoves.

SIA ECO-DESIGN READY

A Henley stove with this icon is a stove which meets the future EU Standards established in 2022.

clearSkies Levels explanation

A clearSkies label means you can be assured that the Henley stove meets all the energy and efficiency criteria, and the different levels allow you to identify how far beyond Ecodesign criteria they go in terms of reducing emissions and increasing efficiency.

Ecodesign compliant but not listed as Defra exempt.

Ecodesign compliant (e.g. previous SIA Ecodesign Ready) and Defra exempt.

15% improvement on Ecodesign; and Defra exempt.

15% improvement in emission & efficiency performance on Level 4; And Defra exempt.

EUROPEAN STANDARD

European Standard of testing for stoves fired by solid fuel, incorporating corrigenda September 2003, June 2006 and August 2007.

5 YEAR WARRANTY

Henley stoves come with a 5 year warranty on the body of the stove.

EXTERNAL AIR

A Henley stove has an external air facility allowing the air to come directly from outside your building rather than through a vent in the room. This is required for heat recovery systems in new build projects.

ECO DESIGN READY 2022

All Henley Ecodesign stoves in this brochure are stamped with our Ecodesign Ready 2022 logo.

CLEAN BURN

A Henley stove has an tertiary air system. This creates a clean-burn system where hot air is pushed into the firebox above the normal height of the fire. This allows the excess gases to combust giving a cleaner burn.

WOOD BURNING

This icon denotes that this Henley stove uses Wood Fuel only.

AIR-WASH

All Henley stoves come with an air-wash system which helps to keep the glass clean. It uses a specially placed vent or vents to draw in air from the outside which will wash over the front of the glass.

ACHILL 17.5

BOILER - INSERT

The Achill 17.5 stove is a multi fuel eco boiler insert, delivering warmth and comfort to your home. It is primarily designed to heat water to radiators.

We would strongly recommend that a radiator is fitted in the room where the stove is installed, to maximize heat output to the area. If you feel the heat output to the room is too high, turn off radiator for that room.

OUTPUT ROOM:

2kW to 6.1kW

OUTPUT WATER:

4.1kW to 11.5kW max

EFFICIENCY:

83.2%

ENERGY CLASS:

A+

FINISH AVAILABLE:

Matt Black

FEATURES

*A Boiler's heat output to the room in which it is fitted can vary depending on how many radiators are utilised.

SHERWOOD

BOILER - FREESTANDING

The Sherwood Boiler stove is the perfect blend of style and performance with new boiler options ranging from 12kW to 21kW. Class A+ energy rating ensures efficient heating, while the clean and sleek design in a matt black finish adds an elegant touch to any room. The Sherwood stove is a multi-fuel stove with an external air connection that provides a healthier living environment.

The cast iron door is durable and easy to clean, and the air-wash system ensures a clear view of the fire.

*A Boiler's heat output to the room in which it is fitted can vary depending on how many radiators are utilised.

12KW	OUTPUT ROOM:	4.0kW to 5.0kW max
	OUTPUT WATER:	3.8kW to 7.0kW max
