COLLECTION

THE ART OF WARMTH - 2025 COLLECTION

# WELCOME TO

THE

# WOODFORD

COLLECTION

The Woodford Collection offers a premium range of Eco-Design Ready stoves, limestone fireplaces, electric fires, and media walls - combining timeless craftsmanship with modern performance.

### Woodford Stoves

Designed to fit the classic British fireplace, our stoves are available in a variety of sizes and styles to suit any interior. Each model features the latest Clean Burn technology, is approved by the SiA, and carries a government Clear Skies Scheme rating - delivering both exceptional efficiency and outstanding design as standard.

### Limestone Fireplaces

Our solid limestone fireplaces are crafted from some of Portugal's finest stone. Each piece is handcrafted, complete with matching hearths and chambers in either limestone or honed slate. The result is a striking centrepiece that brings elegance and character to any home.

### Media Walls

Introducing our new range of media walls, designed exclusively for our Hestia electric fires.

- Austin & Denver: Pre-built MDF media walls for quick and easy installation.
- Solace: A solid marble media wall, available in stunning Polar White or Carrara White.

### Bespoke Options

We can also produce fireplaces to your exact specifications. Speak to your retailer to bring your own unique design to life.

## SELECTION OF STANDS AVAILABLE

THE

**WOODFORD**

COLLECTION

**OVERVIEW**

The Astbury has been designed and developed following the sheer success of our extremely popular cylindrical stove, The Charlton wood stove. Our new Astbury is a multi-fuel round cylinder stove with a perfect 5kW output.

The stove is Ecodesign ready and DEFRA-approved. Like the rest of the collection, it boasts a high-quality build, but it has been priced to offer customers unbelievable value. This is a truly modern stove that ticks all the boxes - stylish, efficient, and affordable.

Like The Charlton, The Astbury features an incredible 50mm rear distance to combustibles (DTC). In fact, our extra heat shield technology allows us to achieve the lowest DTCs available in cylinder stoves on the market.

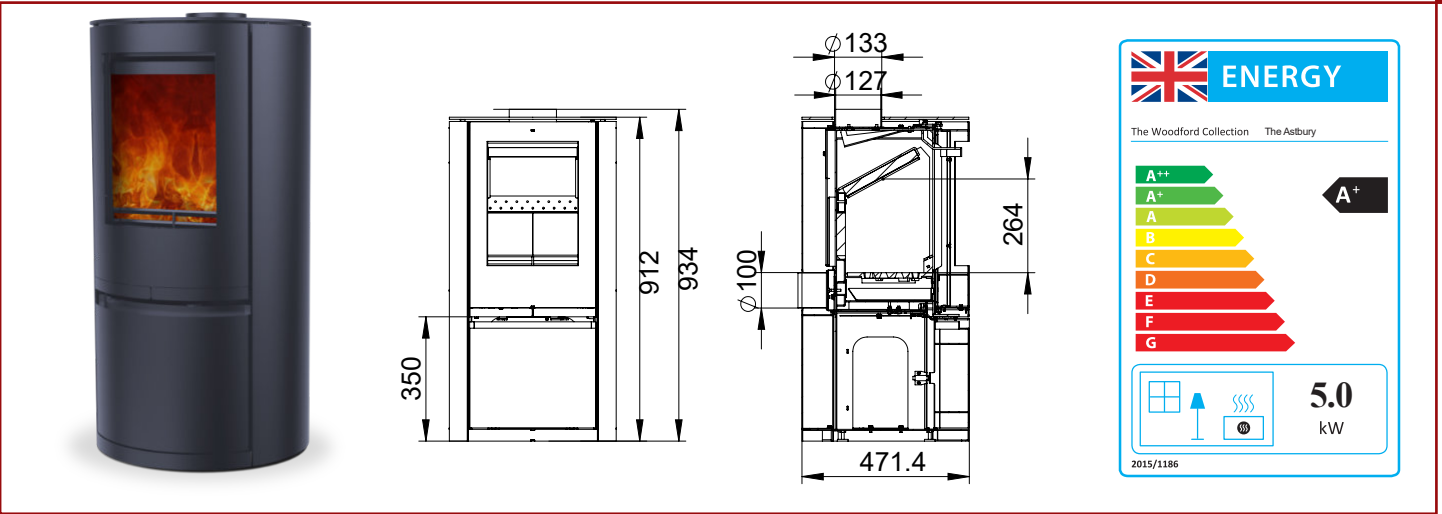

The Woodford Collection - and Woodford Stoves, in particular - have become a very popular choice among both the trade and consumers. We believe The Astbury is an excellent addition to the collection.

## What is Ecodesign?

On January 1, 2022, the European Union introduced a new regulation known as Eco-Design. This regulation mandates that all new stoves must comply with established emissions standards, aligning with the Clean Air Strategy. An Eco-Design stove typically emits 90% less pollution than an open fire and about 80% less than a stove that is 10 years old.

## Woodsure & Ready To Burn Fuels

We recommend you use Woodsure & Ready To Burn certified fuel for all our stoves. Woodsure is the UK's only woodfuel quality assurance scheme.

## Why Woodsure & Ready To Burn?

Woodsure & Ready To Burn are the accreditation given to woodfuel in the industry. It's fuel that's been backed by DEFRA to support The Air Quality Regulations 2022 with the goal of reducing emissions. It's fuel that's been treated in order to meet these standards.

If you've got a wood burner or stove, you need to make sure that you're buying fuel that carries the '**Ready to Burn**' mark. The **Ready to Burn** mark means that the wood has a moisture content of no more than 20%.

The Ready to Burn mark is run by Woodsure Ltd, a not-for-profit, DEFRA appointed Certification Body. It's the job of Woodsure to administer the Ready to Burn mark and to ensure that all wood sold after the 1st May 2021 complies with the Air Quality (Domestic Solid Fuels Standard) (England) Regulations 2020.

THE  
**WOODFORD**  
COLLECTION

The Woodford Collection Gas Stoves offer a traditional-looking gas stove with the charm of a classic design, combined with modern heating technology.

**Heat Output Options:** Choose between a 4kW or 6kW model to suit your heating requirements.  
**Fuel Type Options:** Available in both LPG (Liquefied Petroleum Gas) and Natural Gas variants, providing flexibility based on your homes fuel source.

These stoves are perfect for those who want the look of a traditional stove with the convenience and efficiency of gas heating.

OVERVIEW

Beautifully combining the timeless, stylish aesthetics of the Stockport range with advanced gas fire technology, the Stockport 4 stove is a sophisticated centrepiece.

The compact gas stove, available with either Natural gas or LPG is perfect for taking the chill off when the nights draw in. Sit back, relax and enjoy the high-definition flame picture with realistic log effect.

An elegant addition to your living space, the Stockport 6 combines the latest gas fire technology with chic design details. This gas stove is sure to transform your fireplace with its stylish aesthetics and comforting glow.

**OVERVIEW**

Transform your living space with the striking elegance of the **Austin Media Wall Suite**, purpose-built to complement our Hestia **Electric Fires**. With a clean, modern design and a luxurious **slate grey finish**, the Austin suite brings depth, warmth, and sophistication to any interior.

Available in three standard size options, each suite is expertly designed to frame your electric fire beautifully, creating a stylish and functional media wall that becomes the centrepiece of any room.

Whether you're upgrading a lounge, bedroom, or open-plan living area, the Austin suite offers a sleek and simple solution to make your fire the true focal point.

The slate grey finish provides a modern, luxurious look that works in both contemporary and classic interiors. Each suite is designed specifically to pair with our Hestia Electric Fires, ensuring a seamless fit and finish.

Constructed from 18mm high Quality Printed Egger MDF and supplied in 2 prebuilt pieces for easy installation. While three size options are available as standard, we also offer full flexibility. The Austin Suite can be manufactured to fit any electric fire, simply send us a drawing, and we'll take care of the rest.

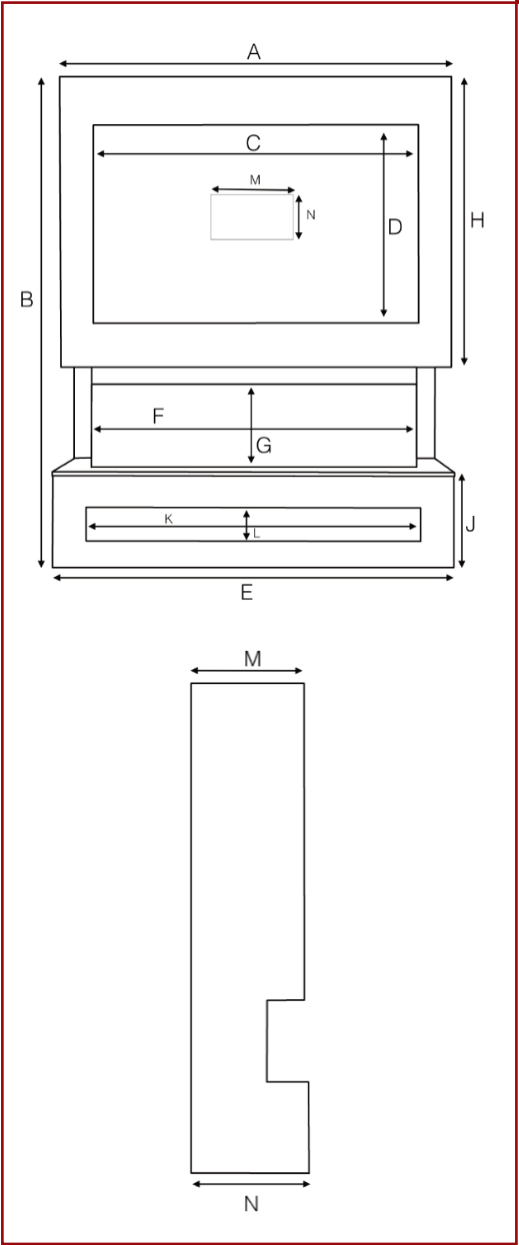

Bring modern elegance to your home with the Austin Media Wall Suite - the perfect match for the style and warmth of your Hestia Electric Fire.

**OVERVIEW**

Transform your living space with the striking elegance of the **Denver Media Wall Suite**, purpose-built to complement our **Hestia Electric Fires**. With a clean, modern design and a luxurious **white finish**, the Denver suite brings depth, warmth, and sophistication to any interior.

Available in three standard size options, each suite is expertly designed to frame your electric fire beautifully, creating a stylish and functional media wall that becomes the centrepiece of any room.

Whether you're upgrading a lounge, bedroom, or open-plan living area, the Denver suite offers a sleek and simple solution to make your fire the true focal point.

The White finish provides a modern, luxurious look that works in both contemporary and classic interiors. Each suite is designed specifically to pair with our Hestia Electric Fires, ensuring a seamless fit and finish.

Constructed from 18mm high Quality MDF and finished with an Acid Catalyst paint for durability, additionally the Denver is supplied in 2 prebuilt pieces for easy installation.

While three size options are available as standard, we also offer full flexibility. The Denver Suite can be manufactured to fit any electric fire, simply send us a drawing, and we'll take care of the rest.

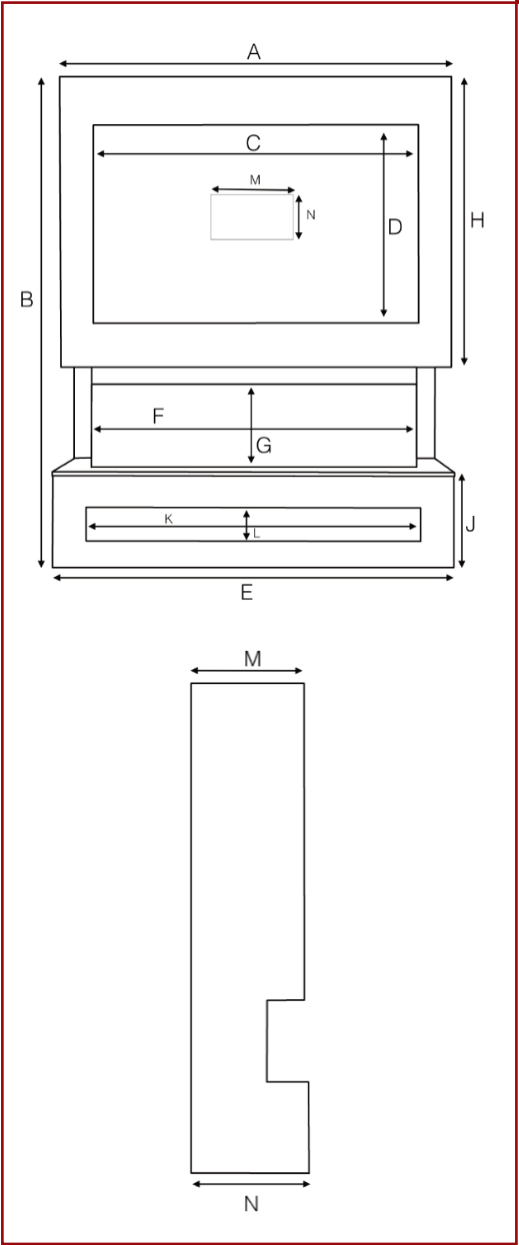

Bring modern elegance to your home with the Denver Media Wall Suite - the perfect match for the style and warmth of your Hestia Electric Fire.

OVERVIEW

Transform your living space with the striking elegance of the **Solace Marble Media Wall Suite**, purpose-built to complement our **Hestia Electric Fires**. With a clean, modern design and a luxurious marble finish, the Solace suite brings depth, warmth, and timeless sophistication to any interior.

Available in **two standard size options**, each suite is expertly designed to frame your electric fire beautifully, creating a stylish and functional media wall that becomes the centrepiece of any room.

Whether you're upgrading a lounge, bedroom, or open-plan living area, the Solace suite offers a sleek and simple solution to make your fire the true focal point. Finished in **Polar White or Carrara White marble**, it provides a premium look that complements both contemporary and traditional interiors. Each suite is tailored specifically to pair with our Hestia Electric Fires, ensuring a seamless fit and flawless presentation.

**Constructed from premium Solid marble** and supplied in **two solid pieces** for ease of installation, the Solace suite is as practical as it is beautiful. While two sizes are available as standard, we also offer full flexibility – the Solace suite can be manufactured to fit any electric fire. Simply send us a drawing, and we'll take care of the rest.

Bring lasting luxury to your home with the **Solace Marble Media Wall Suite** - the perfect match for the style and warmth of your **Hestia Electric Fire**.

THE  
**WOODFORD**  
COLLECTION

PORTUGUESE LIMESTONE FIREPLACES

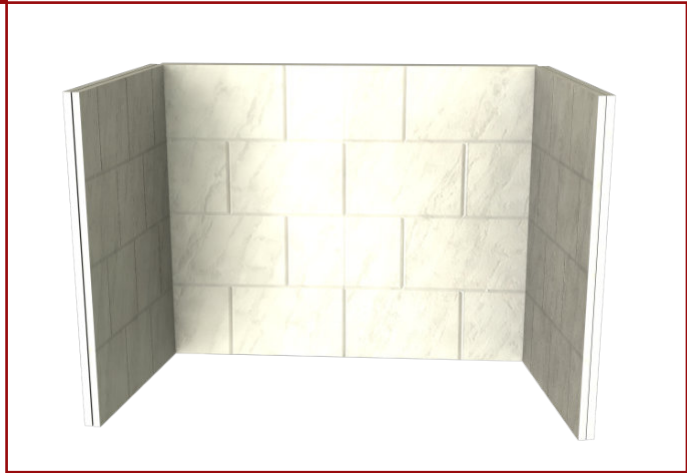

The Woodford Collection Portuguese Limestone Fireplaces feature beautifully crafted fireplaces available in nine distinct styles, ensuring a perfect fit for any home décor.

**Craftsmanship:** Each fireplace is made from high-quality Portuguese limestone, known for its durability and elegance.  
**Diverse Styles:** With a variety of styles to choose from, you can find the ideal fireplace that complements your aesthetic, whether you prefer a classic, contemporary, or rustic look.

These fireplaces not only enhance the warmth of your living space but also serve as stunning focal points, adding character and sophistication to your home.
